EYE CONTACT: Remove contact lenses and irrigate thoroughly for 15 minutes with clean running water or a boric saline eye wash bottle. Seek immediate medical attention & remove any particles with a cotton wool bud.

INHALATION: Remove to fresh air and seek immediate medical assistance if irritation persists

SKIN CONTACT: Wash off skin immediately with water. Remove contaminated clothing and launder before reuse. Where irritation to skin is persistent seek prompt medical attention.

INGESTION: Clean out mouth with copious volumes of water and drink plenty. Do not induce vomiting. Beware of aspiration if vomiting occurs. Seek prompt medical attention and show data sheet.

4.2 Acute & Chronic symptoms:
Inhalation: - May cause some irritation to respiratory system if spray mist is inhaled
 - Symptoms: Cough & risk of sore throat.
Skin contact – Irritating to skin.
 - Symptoms: Redness, swelling of tissue.
Eye contact - Causes severe irritation.
 - Small amounts splashed into eyes can cause redness, lachrymation & swelling of tissue.
Ingestion - Irritation of the mouth and throat, as well as the stomach.
 - Symptoms: Nausea, abdominal pain, vomiting, diarrhoea & cough.

4.3 Immediate medical attention: Speed is essential. Always obtain immediate medical attention where symptoms persist.

5. FIRE FIGHTING MEASURES:

- 5.1 Extinguishing media:** This product is not flammable
- 5.2 Combustion Hazards:** Polypropylene bottle may release noxious fumes (CO/CO₂) under combustion. Steam liberated on contact with water may produce irritating fumes.
- 5.3 Advice for fire-fighters:** Fire fighters should wear full protective clothing with support of chemical shower facilities for immediate wash down after contact.

6. ACCIDENTAL RELEASE MEASURES:

- 6.1 Personal protection:** Wear impermeable PVC overalls, aprons, rubber boots and supply respiratory protective equipment when there is a risk of irritating vapours due to high temperatures.
- 6.2 Environmental precautions:** Contain bund and absorb to prevent product entering any nearby watercourse. Soak up into a sealable container and then wash away fine residues with excess volumes of water ensuring complete and effective dilution.
- 6.3 Spill removal methods:** As above then wash minor surface residues with water into general drains. Mark containers of absorbed product for disposal as special waste.
- 6.4 References to other sections:** See section 10 for disposal & Section 8 for exposure control

7. HANDLING & STORAGE:

- 7.1 Safe handling precautions:** Use in well ventilated areas. Avoid handling dust or granules. Always avoid contact with skin & eyes and ensure nearby provision of shower and eye wash equipment in the event of accidental contact.
- 7.2 (a) Safe storage conditions:** Store in well-sealed, clearly marked containers. Keep out of reach of children in a cool, dry & well-ventilated environment preferably within a lockable metal cabinet. Avoid storage outdoors or where there is a risk of contact with moisture or excessive humidity.
- 7.2 (b) Incompatible materials:** Use only in accordance with instructions shown on the container and do not transfer contents to secondary containers. Avoid direct contact with strong acids
- 7.3 Specific end uses:** For use only as a paint removal poultice in full compliance with the instructions provided.

8.2 Exposure controls:

Engineering controls: The application of the diluted ready to use product as a spray may necessitate measures to ensure ambient conditions (wind, rain etc) do not encourage the spread of product to areas not intended for treatment.

Respiratory protection: May only be required during application where a spray treatment is the chosen method and a risk of spray mist will necessitate respiratory protection such as a half-face vapour protection with goggles as directed below.

Hand protection: Hand protection is advised by wearing rubber or nitrile gloves or gauntlets.
Domestic marigold gloves are usually sufficient for domestic scale applications

Eye protection: Chemical goggles to BS 2092 Goggles should be worn for applications where a spray mist may be formed to help prevent accidental face/eye contact.

Skin protection: Protective and preferably impermeable overalls should be worn, however if the fabric becomes contaminated these should be laundered immediately.
Impermeable wellington boots are also advised when spraying floor surfaces
